Art Unit: 2832

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a multi-directional switch including a contact leg assembly formed by a conductive member fixed to the base and having a central contact portion and four side contact portions disposed around the central contact portion; a common contact leg fixed on the base and connected electrically to the conductive member; a central contact leg fixed to the base and spaced apart from and adjacent to the central contact portion; and four side contact legs fixed on the base and spaced respectively apart from and respectively adjacent the side contact portions of the conductive member; and a resilient plate assembly, which includes a central plate unit positioned on the base and including at least one conductive central plate having an upwardly convex resilient plate portion connected to the central contact portion and is spaced apart from the central contact leg for contact therewith and a peripheral plate unit positioned on the base and including at least one annular peripheral plate that has four conductive portions disposed around the central plate, and four insulating bridging plate portions, such that, each adjacent pair of conductive portions of the peripheral plate being interconnected fixedly by a respective one of the bridging plate portions with each of the conductive portions being in contact with a respective one of the side contact legs and having an upwardly convex resilient plate portion that is spaced apart from a corresponding contact portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Friedhofer whose telephone number is 571-272-1992. The examiner can normally be reached on Mon-Fri 6:00 - 2:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin Enad can be reached on 571-272-1990. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
